About the ACDM

We are a non-profit organisation supporting professionals involved in the management of clinical data. Through development, education, discussion and promotion of innovation & best practices, leading to enhancement of our members' knowledge and skills, we represent and support professionals across a variety of industries.

Our goals include:

- Enhance and promote the benefits of the ACDM to an increasing global membership
- Create an easily accessible and visible information repository
- Establish an active communication platform for the dissemination of new industry developments
- Develop and execute a professional development and training strategy that meets the changing needs of the membership
- Forge and strengthen links with related industry organisations

Membership

There are now seven types of membership categories: Ordinary, Associate, Honorary, Affiliate, Corporate, Student and Overseas.

The membership year runs from 1st September to 31st August entitles you to a number of benefits, which include:

- Free quarterly newsletter – DATAMATTERS
- Free attendance at Hot Topic Discussion Webinars
- Discounted rates at Training Courses/Webinars
- Discounted rates at the Annual Conference
- Discounted Publications
- Participation in Special Interest Groups / Committees

- eShots / Access to resources

Full details about membership categories, membership benefits and application forms visit our website <http://www.acdm.org.uk/joinacdm.aspx>

ACDM Activities

One of the main objectives of the ACDM is to provide members with continued professional development and therefore runs a comprehensive programme of activities through the year to help develop and support those involved in the management of clinical trial data.

ACDM are committed to providing high quality learning opportunities and unique training offering for the clinical data management community.

ACDM Accreditation Programme

Certificate Levels 1, 2 & 3 in Clinical Research Data Management (DMIACR) - The ACDM, in partnership with the International Academy of Clinical Research, has developed a series of training programs supported by comprehensive course work and interactive sessions, providing independently recognized, competence-based accreditation.

Each of the ACDM's courses has been assigned a number of CPD points based on the time involved in participating in the course and in completing assigned pre- and post-course work.

The courses are quality assured by bodies regulated by OfQual (Office for Qualifications and Examinations Regulation) and the levels are recognized within the ISCED framework (International Standard of Education) framework produced by UNESCO (United Nations Educational, Scientific and Cultural Organization).

Designatory letters are awarded to those completing the Certificate Level 1, 2 & 3 which provides an indication to organisations and other professionals that the learner has passed an independently verified accreditation process and is able to perform their role effectively.

Webinars – are designed to give a broad overview of a subject area or to look at one specific aspect of a topic. These are generally held between 12 – 1 PM (GMT).

In-House Training – ACDM can deliver any of the training courses / webinars in-house to provide a bespoke course to suit the needs of your company.

ACDM Annual Conference (held in March) – This is our premier event, held for one day in the UK or Europe focusing on key topics in the industry. Key speakers from the industry and academia, share innovations and best business practice on the latest developments in the field. With an emphasis on networking, providing education and support, the event is invaluable.

Special Interest Groups/Committees:

These provide an opportunity for members to engage in open discussion, meetings and events relating to their specific area of interest within the industry.

Hot Topic Discussions:

ACDM holds at least four Hot Topic Discussions a year, open to members only, to stimulate debate and cross-fertilisation of ideas on hot topics affecting the industry.

See overleaf for planned activities in 2016
